

VALERY LAVROV

Independent Product Developer

Lod, Israel · +972 543 328 803 · valerynz@hotmail.com · github.com/ValeryKG

Portfolio: <https://lavrov-dev.com> · LinkedIn: [linkedin.com/in/valery-lavrov](https://www.linkedin.com/in/valery-lavrov) · GitHub: github.com/ValeryKG

PROFESSIONAL SUMMARY

Independent product developer with 25+ years of IT experience. I conceive, design, architect, and ship complete production applications solo — owning the full product lifecycle from user experience and feature logic through data architecture, legal compliance, and deployment. I work with AI-assisted development as a core part of my process, which allows me to operate at a scope and speed that would otherwise require a team. The ideas, product decisions, architecture, and quality bar are entirely mine. Background spans Java enterprise development, React/TypeScript/Firebase, entrepreneurship, Oracle/Java certification, and professional sports coaching. Fluent English, native Russian, conversational Hebrew.

FEATURED PROJECT

TimeClock GPS — Enterprise Workforce Management System

React 19 · TypeScript · Firebase · bcrypt · GPS/Geolocation · i18next (~17,000 lines across 25+ screens)

- GPS-verified workforce clock-in/out for multi-site organizations — six user roles, seven dashboards
- PIN authentication with bcrypt hashing + IndexedDB device fingerprinting
- Device approval workflow — new phones require manager authorization before use
- Five GPS approval modes: auto-approve, GPS check, hours range, expected-hours, strict shifts
- PDF and Excel payroll export with multi-language column headers — 4 languages including RTL
- Offline-first — clocks in/out queue locally and sync automatically on reconnect

TECHNICAL SKILLS

Frontend	React 18/19, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Vite
Backend & Cloud	Firebase (Firestore, Auth, Hosting, Functions, Storage), Node.js, Java SE/EE, JSP, Servlets, JDBC, EJB
Databases	Firebase Firestore, Oracle DB, MySQL, SQL, PL/SQL
PWA & Offline	Service Workers, IndexedDB, Web Manifest, offline-first architecture, auto-update systems
APIs & Libraries	Browser Geolocation, Haversine formula, jsPDF, SheetJS (xlsx), Recharts
Auth & Security	PIN + bcrypt hashing (Firebase Functions), device fingerprinting, RBAC, session management
i18n	i18next — English, Hebrew (RTL), Arabic (RTL), Russian
Tooling	Git/GitHub, VS Code, Firebase CLI, ESLint, TypeScript strict mode
Legacy/Enterprise	Apache Tomcat, WebLogic, GlassFish, Oracle Application Server

ALL PROJECTS (2022 – 2026)

TimeClock GPS — Enterprise Workforce Management System

React 19 · TypeScript · Firebase · bcrypt · GPS/Geolocation · i18next (~17,000 lines)

See Featured Project above.

StockPilot — Team Inventory Management

React 19 · TypeScript · Firebase · Vite · Zod · Recharts

Production inventory system for multi-role teams. Folder-level access control, separate consumable and asset tracking, immutable audit log, low-stock alerts, consumption analytics, PDF/Excel export.

CourtIQ — Basketball Player Development Platform

React 18 · TypeScript · Firebase · Tailwind CSS v4 · PWA · Recharts

Sports management platform with three user roles (Player, Coach, Manager). Real-time skill tracking, session logging, scouting reports, scheduling, ROI analytics, 176-skill library. Full legal compliance — ToS, Privacy Policy, consent tracking.

MyHours — Personal Time Tracker

React 18 · TypeScript · Firebase · IndexedDB · jsPDF · xlsx

PWA for freelancers and employees. Multi-workplace GPS auto-detection, hourly rates, overtime multipliers, time rounding (8 settings per workplace). Multi-currency (ILS, USD, EUR, GBP, RUB), PDF/Excel payroll reports, 4 languages with RTL, offline sync.

Baiti — Building Management Platform

Vanilla JavaScript · Firebase (Realtime DB, Auth, Cloud Messaging, Functions) · Tailwind CSS

Apartment building management: payment tracking, tenant admin, voting system, push notifications without app store. Built without a JS framework. 30+ iterations from prototype to version 1.0.9.

WORK HISTORY

Independent Product Developer

2022 – Present

[Self-employed](#) · [Israel](#)

Designing, building, and shipping complete production applications across workforce management, inventory control, property management, and sports analytics. Five live apps. 30,000+ lines of code. All conceived, architected, and deployed solo.

- Built TimeClock GPS: GPS-verified workforce system with 6 user roles and payroll reporting
- Built StockPilot: team inventory management with role-based access and immutable audit trail
- Built Baiti: building management platform with push notifications and payment tracking
- Built CourtIQ: basketball coaching platform with skill tracking and progress analytics
- All apps multilingual — Hebrew, Arabic, Russian, English — with full RTL support
- AI-assisted development as core workflow, compressing team-scale work into solo execution

Facilities Technician

April 2022 – Present

[Palo Alto Networks \(formerly CyberArk\)](#) · [Petah Tikva, Israel](#)

Facilities operations at a global cybersecurity company. Direct exposure to enterprise maintenance workflows and facility management — which directly informed StockPilot and related tooling.

Web Developer / Founder

2014 – 2017

[Israweb4u](#) · [Israel](#)

Web design, development, and digital marketing for Israeli small business clients. Facebook Ads and Google Ads campaign management.

Java Developer

2010 – 2012

[Unlimited Capital Ltd](#) · [Israel](#)

Designed and built a Java EE enterprise web application. Secure member registration (SHA hashing), warehouse/order processing system, admin dashboard. Stack: Java SE/EE, Servlets, JSP, EJB, JDBC, Oracle DB, WebLogic, JUnit. Concurrent with Oracle certification — 93% Java SE, 98% SQL/PL/SQL.

IT Administrator / Head Basketball Coach

2007 – 2010

[YouthTown](#) · [Auckland, New Zealand](#)

Dual role: IT network administration and head coaching for youth basketball program. Built event promotional materials and independently developed a dedicated basketball website.

Computer Technician / Sales GOLF Computer Company Ltd · Israel Hardware configuration, software installation, troubleshooting, customer technical support.	2005 – 2006
Computer Support Specialist SKORNIK Security Ltd · Israel Hardware and software installation, maintenance, repair, daily performance monitoring.	2002 – 2004
Computer Technician / Sales PARUS-KRYM Ltd · Simferopol, Ukraine Technical support, user training, requirements gathering for system modifications.	1997 – 1998
Business Owner — PC Parts & Software Store Self-employed · Simferopol, Ukraine Procured and retailed PC hardware, games, and software. First business ownership experience.	1995 – 1997

EDUCATION & CERTIFICATIONS

Oracle Certified Professional Oracle Space · Israel – Oracle SQL, PL/SQL, DBA — Score: 98% – Java SE 6 / J2EE Certified Professional — Score: 93% (passing threshold: 61%)	2010 – 2012
Licensed Basketball Coach Wingate Institute — Tel Aviv University / Seeim Center · Israel Professional coaching certification. Certificate No. 13-34-0001908.	2013 – 2014
Master's Degree — Sport Science Tavrian National University · Simferopol, Ukraine Specialist of Physical Training (coach, instructor). Diploma No. A 388339.	1997 – 2003
Web Development lynda.com / w3schools · Self-directed HTML, CSS, XML, MySQL, PHP, JavaScript, Dreamweaver CS5, Photoshop CS5.	2007 – 2009

LANGUAGES

English — Fluent · Russian — Native · Hebrew — Conversational
